## REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir or Madam:

We have received a Filing Receipt for the above-identified patent application and have noted an error. In the Domestic Priority section, the filing date of priority Application No. 10/416,623 is incorrect. Our records and those of the U.S. Patent and Trademark Office indicate that Application No. 10/416,623 was filed on May 12, 2003, not May 13, 2003, as indicated on the Official Filing Receipt.

We note that an error was initially made by the Patent and Trademark Office with regard to priority Application No. 10/416,623 in that an incorrect filing date was accorded. Applicants submitted a Petition to correct the filing date and a decision was reached on March 26, 2004 according the proper filing date of May 12, 2003. A copy of the Decision on the Petition is enclosed.

Also enclosed are Page 2 of the Combined Declaration and Power of Attorney of the present application and Page 1 of the present application, both of which indicate a proper claim of priority to the May 12, 2003 date. A copy of the Filing Receipt with Applicant's requested corrections indicated in red is also enclosed.

Accordingly, Applicants respectfully request that the filing date of priority Application No. 10/416,623 be corrected on the filing receipt to read: "05/12/2003" and that a new and corrected Filing Receipt be issued.

Respectfully submitted,

By 

James J. DeCarlo

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
